

Microsoft Access – Text Align

Text Align

Specifies the alignment for data.

The options are:

General	Aligns text to the left, numbers and dates to the right (default setting).
Left	Aligns all text, dates, and numbers to the left.
Right	Aligns all text, dates, and numbers to the right.
Center	Centres all text, dates, and numbers.
Distribute	Justifies all text, dates, and numbers evenly against both sides of the field or text box.
